Pushpit mounting

The UNIFIX WB mounting brackets range is ideal to fix your rigid solar panels on your pushpit. Made of 316L polished stainless steel, UNIFIX WB is robust and entirely protected against corrosion.

Thanks to its universal fixation system, it can be fixed on all pushpits.

With an adjustable tilt for the 20.1WB and the 100.1WB, with adjustable tilt and steerable for the 50.2WB, the UNIFIX WB optimizes your electrical performance and thus increases your production up to 50% compared to an identical fixed installation.

Developed for the fixation of Uniteck panels, it is not necessary to drill the panel frame (operation cancelling the product warranty with many brands).

Reclinable arch mounting

The UNIFIX WP RECLINABLE mounting brackets are ideal to fix your rigid solar panels on your arch.

Made of SAE 316L polished stainless steel, UNIFIX WP RECLINABLE is robust and entirely protected against corrosion.

Its universal titling system allows it to be fixed on all arches : double or single bar, bimini arch...(diam 25 to 45 mm).

Thanks to the adjustable inclination of universal fixation system (-60°/+60°), UNIFIX WP RECLINABLE increases your production over 30% against a horizontal installation.

The panel can be positioned either centered or off-centered according to your wishes or your arch configuration.

MONO-BAR FIXATION

To maximize space at board, the reclinable arch mounting are equipped with a mono-bar assembly.

MULTI-POSITION

According to your arch configuration or your wishes, your panels can be positioned either centered or off-centered.

INCLINATION

Easy inclination system thanks to adjusting rings optimize your electrical performances depending on the season and the geographical area.

MULTI-PANEL

In double-panel, with UNIFIX 200.1 WP and UNIFIX 300.1 WP offer a larger electrical production area for more self-sufficiency.
